SBCA Breeder Achievement Awarded To Kristi Libsack - Kris's Kountry Saints.

WHEN THE SAINTS COME MARCHING IN
St. Louis 2022 SBCA National

I am so honored to join many of the legendary breeders that have had the honor of receiving this award.

My first Saint came into my life 35 years ago when my husband made the choice to add a St Bernard to our family. I quickly fell in love with their temperament. After several years I decided to try my hand at whelping a litter. I enjoyed the puppies and the joy they brought to their new families.

Through studying the breed and meeting my two mentors Martin Glover and Mlynn (Tikki) Smith, I have learned so much about this breed and pedigrees. I have collaborated with both of them with my Kennel's pedigrees and co-breed multiple litters with great success. I attribute my success to their guidance.

Judge Lynn Jech
Dog Judging
Evaluation & Comments

I am grateful, once again, to have been asked to judge at the SBCA National Specialty Show. It is an honor and serious undertaking. While the number of dogs exhibited was quite small for a National Specialty, the depth of quality was present in the American Bred and Open Shorthair classes and in the first-place class winners. However, having only 23 dogs to judge doesn't really provide enough data as to the overall conformation "health" of our beloved breed across the country. I saw a few light eyes, straight fronts with loaded shoulders, gay tails and lack of masculinity. I also observed a wide spectrum of type that can be found in our breed. But overall, soundness in front and rear assemblies has greatly improved over the years as well as the greater length of leg - so bravo to the breeders for these qualities!

After sorting through the dog classes, in the end, there were three dogs that I had settled upon from which to choose my Winners Dog.

My choice for Winner came from the Bred-By Shorthair class. He had heavy chiseling in the head and was broad across the muzzle, top skull and face that provided the fill under his dark eyes to make a very powerful masculine head piece. He had black pigmented lips complete with the lovely desired curve. Although he had a couple of wrinkles over the bridge of the nose, they did not detract from his expression. He was proportionately tall and showed great width across the chest and loin, as the standard calls for. He sported massive substance in the bones of his front and back legs. I was impressed by the length of his upper forearm that allowed the placement of his elbows and forelegs to be well under his body where they belonged. His front and rear angulation matched each other and together with the proper back length allowed him to move straight on the down and back and not overreach in the side gait. In motion, he carried his tail down or out straight – no gay tail. His movement was easy and powerful. The "icing on the cake" was his eye-catching markings!

My Reserve Winner came from the American Bred Class and was an outstanding representative of the breed for similar reasons as above. He was another great mover, had nice leg length with proper proportions of body, a masculine head with softer expression. I was glad that there were enough dogs in the classes to be able to award points to him for his Reserve win. The third dog in the running came from the Open Shorthair Class and was another beautiful representative of the breed. While he was the best mover of the three dogs, I was looking for a bit more width across the head and chest. He was very lovely in the lineup.

A few weeks after judging, I was reminded that all three of these dogs had placed first in their respective classes at the Utah national last year so it was good to see them after another year of maturity.

Thank you to Carole Wilson and her show committee for the hard work of putting on the show and persevering with the first time ever (at an SBCA National) Fast CAT event! And thank you to the "Keepers of the Ring" – Terry and Sara Temple, Penny Janz, Pat Kinser and Pam Predmore – for keeping the ring running smoothly!

As is the case at every dog show, there are no perfect dogs but at this level of competition, you need to bring your very best. If you are new to the breed/sport, keep plugging away and practicing your handling skills in addition to upping your breed education. Sometimes you are not aware of how your dog moves. I recommend having a friend/mentor take a video of your dog's "down and back" and side gait so you can see what the judge sees. Study dog anatomy and how the skeleton and muscle attachments interact to create the motion of a dog. And then let's see you again at the 2023 National in West Virginia!

Judging Reflections
Mrs. Barbara J. Sarti-Allen
Bitches and Best Of Breed

What a beautiful bunch of Saints I had to judge! The breed has come a long way since I got my first Saint back in 1971. Back then you needed 23 dogs to make a major. Our breed nowadays is much more consistent in type and much sounder. Our young breeders are doing a wonderful job of breeding. My Specials class was outstanding. I sure wish I could have had more Awards of Merit to give, as I had to send out a few dogs that really were deserving. I did see a few bad bites. That has never really bothered me, as our dogs don't save people with their bites. Now stamina is very important, and also the feet. One of the very first books I read on dogs was" Dogs in Action" by McDowell Lyon. He stressed on the feet being very important because they are bearing all the weight of the dog. I just saw a few with bad feet. Thank you all for giving me the privilege to judge such beautiful dogs.

Comments From The Show Chair
Carole Wilson

I would like to thank everyone who came to the National in October or helped support it. We had a full week of fun with Saint Bernards.

There were six days of Specialty Shows. The first two days we were showing outside. The weather was very nice for late October, but it was very windy. We also had three Obedience Trials, three Rally Trials, three Weight Pulls. (The weight pulls were held indoors, and that helped to have more people watching the dogs pull.) For the first time ever, we had a FastCat. There were 49 entries, and many of the people and dogs enjoyed the activity. The weather was great on the day of the FastCat! We also had a Halloween Party, and there were many unique costumes for both the Saints and their owners. We had a great photo contest. It was handled very well. It started online before the National and then continued through most of the week.

We also had a Top Twenty on Wednesday evening, with almost all of the Top Twenty Saints participating. It was a great activity, and all of the participants received some beautiful personalized rosettes.

It was a lot to fit into one week. We had a great committee which worked very hard in the preparation and management of the many events. I would like to thank everyone on the committee. We had a basket raffle and a couple other smaller raffles.

We had a great week, the weather cooperated, and we were profitable. Yes, we made over $2,000. We had tried to keep the prices down, and it was just as we had planned. I hope everyone who attended had a good time.

Judge Barry Roland Performance Events

In the more than 40 years that I have been a member of the Saint Bernard Club of America, this was only the second time I have been without a dog at the National. I love the close relationship gained with our dogs by the training for the many Performance Events that occur during the week.

We had a very successful week, which would not have been possible without the help of the following people. These folks are the backbone of our events, and they all worked very hard to help make it a success.

The Obedience/Rally Trials for Monday and Tuesday were stewarded by Carole Wilson and Nikki Sage. The Friday Obedience/Rally Trial was stewarded by Carole Wilson and Barry Roland.

We had three weight pulls during the week, including the unloading of the equipment on Monday. The people helping varied from pull to pull, but each of these people were invaluable. Nikki Sage, Tom Moore, Micki Moore, Brian Landers, Layna Landers, Kim Goodwin, Jay Kuster, Jessica Kuster and Carole Wilson, who made sure we had weight to pull.
We had a Draft Test on Wednesday, which was judged by Ron Allerdice and Barry Roland, and stewarded by Jay Kuster and Nikki Sage. Every event had one constant on the help given, and that was Nikki Sage, who has year in and year out been there when needed.

The Pee Wee Class

Each Pee Wee unit consists of the child (5-9 years of age), his/her parent/guardian/responsible adult, and the dog. Only one Pee Wee unit is in the ring at a time. This is not a competetive class, but rather a fun learning experience for the child and the adult. A dog must be at least four months of age to enter the Pee Wee class.

Our Judge for the day was Barbara Sarti-Allen. No judging actually takes place but the 'Judge' mentors each Pee Wee Unit according to their age and needs.

HAPPY NEW YEAR!

All,
HAPPY NEW YEAR!
Well, this issue will feature all the goings on that happened at the National in 2022. Because of the late date (the last week of October) of the National we had to publish the results in this Winter issue. It looks like it was well attended. Congratulation to all the winners!

There is information about the 2023 National being held in September in this issue. Check it out and make your reservations early.

Check out the Upcoming Specialties section, there are a ton of shows coming up and you don't want to miss going to one of your favorites.

Please remember if you win BOB and BOW at a Specialty show send me a copy of your win photo to be included in the Specialty section.

If you have any candid photos (no show photos) of you dogs or puppies please send them to us to use as filler photos. We always welcome photos.

I would like to take this opportunity to thank all the members of my staff who help me get this magazine out and a special thanks to Bill Hinchman for the layouts and Marge Macgregor for proofing.

I would like to thank everyone who has submitted articles for the Fancier, it is very much appreciated!

Please feel free to email me with any suggestions or articles you may have: sierrasaint@sbcglobal.net or call me. Home # 661-264-3145, Cell # 661-609-2017.

Hoping to hear from you soon!

Words can neve express our gratitude. Thanks to the estemed judges for the event Ms Karen McFarlane, Ms Karen Pratt and Ms. Jackie Schart-Parker.

President's Message

By SBCA President Karen Bodeving

Happy 2023!

Another year has come and gone, and another National also!

This edition of the Fancier showcases our National Specialty at Purina Farms! What lovely dogs, great friendships and a wonderful gathering of our breed and fanciers! Many thanks to Carole Wilson and the Committee for putting on a memorable National!

2023 Ballots have gone out for the "changing of the guard" - new officers and Judges for the 2024 National. This board's year ends on February 28, and it's not a complete turnover; we will be voting for a new (or incumbent) governor from each region, as well as a treasurer and corresponding secretary. March 1st will be our new year, with committee heads being appointed/reappointed and exciting things to move the SBCA forward. Dues renewals have gone out in paper form, or you can opt to pay your dues online on the SBCA website. (I did and it was very easy!)

Looking back at our accomplishments this year, we have hopefully created some excitement with the SBCA and hope to continue moving this forward. The online Library at: https://saintbernardclubofamerica.club/education-library/ has Education material from bygone years as well as Education Articles and scanned Fanciers from the 70's and 80's – with more to come. The Illustrated Commentary on the Saint Bernard Standard can be found there also – or you can directly download the pdf using this link: https://saintbernardclubofamerica.club/wp-content/uploads/2022/09/An-Illustrated-Commentary-on-the-Saint-Bernard-Standard-r.pdf

Bob Carter has been updating the website, and there is lots of material there with much more to come.

The 2023 National Committee is going strong and readying for a wonderful September National – Make sure you stay up-to-date with their Facebook page and their webpage at: https://2023sbcanational.com/ Make your reservations now!

We now have a venue for the 2024 National! Western Governor. Kristi Libsack and Doylene Roberts have secured us The Ranch Events Center for late fall in Loveland Colorado. Looking forward to another wonderful venue!

Saintly Wishes,
Karen Bodeving, President

Photo Quality Notice

In order to continue to produce a quality publication that we can all be proud of, we need to have quality parts. When you submit a photo for publication it should be the best quality available, not downsized to save space or to make emails smaller. A full page image should be 2550 X 3300 pixels. Quarter page images around 1275 X 1550 pixels. Remember that pictures that look great on-line don't necessarily print well.

The 2022 SBCA Health Panel

Breeding a sound, healthy and beautiful Saint Bernard. How hard can that be?

By Dr. David Trachtenberg, DVM - Health Committee Chair

There are many days I wonder if it would have been easier if I had decided to devote my time and energy to help solve world hunger or the climate crisis. I no longer wonder-- the latter two would have been a cakewalk. That said, I would like to share some of my experiences and resources which I hope can help guide breeders through some of the more challenging aspects.

There are a few rules I live by.

Rule number 1: Take care of yourself and your family. This is often the hardest thing to do. I will use myself as an illustration. The challenges from Covid combined with major family health issues created an environment that made it very difficult for me to do anything other than the most pressing issues. Getting constantly pulled in different directions was unsustainable; there came a point that in order to get anything done, I had to pause everything that was not essential.

I reprioritized how I spent my time, because it is impossible to be great at anything if you do not have the time to invest in it. Rather than fail at multiple challenges, I put on hold the things I could, cutting back on veterinary medicine, Saint breeding, and even my work for the Health Committee. This enabled me to be able to focus and take care of my family, and now, it gives me the opportunity to excel at the things that I put on hold.

Breeding Saints can only be done well if you have the time and the focus to accomplish what you set out to do. If you do not, you should not be breeding at all.

Rule number 2: Only listen to people worth listening to. Find out who the authorities are on whatever issue you are learning about and learn from them. This may or may not be your friends, as friendship does not qualify anyone as an expert. For potential stud dogs, if there is a dog that you like, consider breeding to it. Don't assume that something negative you have heard about that dog or breeder is true. Go to the source and talk to them directly. Often rumors are not true.
All veterinarians are not created equal; seek advice from ones you know are knowledgeable about Saint Bernards or specific medical conditions.

Rule 2.5: Hear what people have to say, even if it is not what you are used to hearing or think you are not going to agree with it. Think about what they are saying, then draw your own conclusions. The success or failure of your breeding program falls on you and what you choose to believe and integrate into your program.

Rule 2.7: Breed to the best dog you can find. If it happens to belong to someone that your friends may not like, too bad, so sad.

Rule number 3: Research. For health issues, talk to people knowledgeable on those subject areas. Research online only places that are known to be excellent sources of information, which is not necessarily the most popular blog. Good sources include university sites, DVM resources, AKC, or international veterinary sites.

Rule number 4: Diversity of lines vs purity of type. Locking in traits you desire in your lines - this is the cornerstone of breeding. But… remember that to lock in good traits, you may also be locking in bad ones. You also must consider going outside your lines to bring in traits that are especially hard to find in your line.

Rule number 5: Never focus on just one or two medical issues. Breeders who put too much emphasis on one or two things will improve those traits but will also sacrifice others. The sacrifice may be other medical issues or type. Traits need to be improved over the long term, and priorities emphasized based on what needs to be improved in that dog or line.

Above all: Make you own decisions - your success is dependent entirely on the decisions you make.

From the desk of Dr. Trachtenberg, DVM

QUE SERA SERA

By Prof. Susie Collier - Staff Writer

In the Beginning
Teeming with excitement, we pull out of our driveway in my beloved Beowulf, our RV, and head toward the SBCA National in St Louis. Confident we will make the 900-mile journey to the National this time, having spent a small fortune to repair Beowulf, we entered four Saints into each show and prepped another for the costume contest. Beowulf is stuffed to the gills in my signature packing style. The freezer and pantry are stocked with assorted meals and healthy snacks, while dressers overflow with new show suits and casual wear.

Two dog carts complete with costumes, music and paraphernalia for our Children's Songs theme (Costume Contest) are stowed in Beowulf's basement next to a pirate plank, soccer set, bowling set, miniature piano, tunnel, balls of all sizes and other essentials for AKC Trick Dog titles. Bags of dog food and water for the week rest in the hold, too. It seems a waste of space to schlepp water across the country but tap water in different locations can upset a dog's stomach, much like switching foods. The upside is with a week's rations depleted, there is space for purchased auction items.

Beowulf's belly rumbles for nourishment, so Dr Dave stops to quiet the beast. A sign at the diesel pump states, "People with heart conditions should not read the cost of diesel or the bill total." Too late. With a sigh of resignation, Dr Dave begins to sate Beowulf's enormous appetite when the filler tube cracks and diesel spews forth like Old Faithful. Dr. Dave grabs the tube as he fills the tank so the fuel spill is minimized. He places a hose clamp over the crack and most of the leaking stops.

Traveling on a dark, deserted highway, Beowulf blinks Morse code, maybe to aliens? Dr Dave stops and quickly fixes the headlight switch to avoid being abducted by the Greys (aliens). The coach batteries soon die causing the loss of the marker lights, window fans, coach lights, fog lights, water pump and refrigerator/freezer. Unable to proceed safely, we sleep with one eye open (lest the Greys visit) at a rest stop and wait for the safety of dawn.

The Middle
"Look! The Gateway Arch! It's a Kodak moment!" Before long, we pull into Purina Center and the cab A/C blower quits. We locate our assigned spot in the overflow lot and provide life support to the AC and coach batteries by hooking up the electric. Full of hope that everything is all set and we can enjoy the week, I step out the door. The electric steps break. I know I am not the weight of an elephant, what gives? Oh yes, the steps give…out. The pirate plank Dr Dave fussed at bringing proves to be a lifesaver, as it serves as the RV ramp. Then the toilet base commences to leak. A torrential downpour initiates a massive roof leak, shorting out and sparking two of the ceiling lights, a dangerous electrical hazard.

Lacking water hookups, Dr Dave embraces his pioneer persona, hiking up the steep incline to the Purina building to fill his water buckets. Heavily laden with his buckets, Dr Dave lumbers back to Beowulf. After his fifth trip, a generous, fellow exhibitor parked across from us offers to share his water hookup. Dr Dave's legs and back are relieved and very thankful.

That night two friends stop to visit. Excited, I quickly toss on my robe to say hello. While chatting, I lose my balance on the rickety ramp and plummet backwards into empty space. One friend grabs half of my robe and my other friend grabs the other side of my robe. This saves me from falling but not the embarrassment of being au natural under my robe. Fortunately, the area is deserted, at least I think it is. If I pop up on TikTok or AFV, let me know.

ZAP! Suddenly, our Marvel world transforms into Bizzaro world. Easygoing, eager to please and well-behaved Saints transmute into beings with anomalous behaviors. For them, Purina Center transmogrifies into a confusing, alien world. Two Saints adamantly refuse to leave the safety of their crates or Beowulf, period. Not even a stick of dynamite can persuade them. This forces innumerable cleanups on aisle two, all day long. Two other Saints opt for a different perspective and continuously break out of their kennels, wreaking havoc. Two Saints that do exit the RV behave skittishly and edgy, even hyper vigilant and barky. Reentering the RV requires massive coaxing. One Saint takes an hour before he reluctantly agrees to enter Beowulf. One Saint decides to bark all night long despite our best efforts. We are thunderstruck by their unwonted behaviors. Then we hear of other, traditionally well-behaved Saints, that present with atypical behaviors.

All the behaviors point to anxiety, but why here, why now? Traveling in Beowulf is old hat for the Saints. The answer appears to be geological, the New Madrid Seismic Zone. Earthquakes produced by the New Madrid fault are infamous and have produced: the longest and most damaging earthquakes in history, reversed the Mississippi River so it flowed in reverse for several hours, was powerful enough to be felt as far away as New York, Boston and the White House, created the largest known sand boil, and creates balls of tar, aka solidified petroleum.

Greeks, in 373 BC, observed animals fleeing to safety and into their abodes days before a seismic event. Since then, humans have observed measurable behavioral changes in dogs and other animals pre-, post- and during earthquakes. Animals can react to earthquakes differently, even within the same species. It was noted wild dogs turned docile and domestic dogs went haywire. Canines sensitive to earthquakes often: howl, bark, become agitated, excited, restless, nervous, tremble, increase their activity, try to escape or velcro to their owners. This can happen weeks, days, or hours before, during and after a quake. These behaviors must contrast with the animal's normal behavior in order to qualify as an "earthquake detection dog".

It is not known with total certainty why some dogs can detect earthquakes. Two the-

Costume Contest Theme: Children's Songs

ories include dogs can feel the earthquake's P-waves which humans are unable to detect and dogs' acute hearing picks up the high-pitched grinding sounds of shifting tectonic plates as they break apart.

Several earthquakes occurred while we were at the Purina Center, one on October 21 at 1:07am with a 1.7 magnitude and two on October 23, one at 5:01am with a 2.2 magnitude and one at 10:58am with a 1.4 magnitude. While not all dogs respond to earthquakes, clearly, mine and a few other Saints, are sensitive as indicated by the abrupt change in their behavior. Notably, their behaviors went back to normal as soon as they left the New Madrid Seismic Zone.

Dne eht Ni

Beowulf's collapse combined with earthquake detection dog behavior from the Saints forces Beowulf to pull out early and head home. Dr Dave and I commiserate about missing the shows, auction, costume contest, socializing with friends, and other events and, since we could not show, the wasted cost of the outrageous price of diesel, unused grooming spaces, RV parking, show entries for four dogs, and other expenses.

POP! Beowulf fishtails like a salmon swimming upstream as his rear tire blows out, shredding the mud flap and wrapping parts of the tire around the axle. Dr Dave pulls into a plaza next to a hotel in Columbus, Ohio and phones AAA. They claim they will send someone. After waiting over an hour and listening to the constant, shrill screams of sirens from the many police cars whizzing by on the road, I call back; they are unable to find help until morning, but we can call 911. Feeling foolish to call 911 for a flat tire, I dial 911. Two wonderful Police Officers arrive and ask us to wait 15 minutes while they respond to a domestic call at the hotel. Fifteen minutes later, Columbus' Finest procure a truck tire repair operator to change out the tire and we are on our way … again. First, thank you to these fine Officers for helping us, and second, we are rejoining Good Sam.

KABOOM! The radiator hose blows, coolant cascades, the engine overheats and as Beowulf limps into our driveway, the engine dies. The journey is over. Now to unload.

I learned getting to and from a dog show is harder than it looks, never become too attached to a vehicle, and Sassy, my partner in the ring, claims it is best to bypass seismic zones.

Take care and stay safe.

Submitted By Jen Mehle - CHIC Program

Welcome to our new section highlighting the St. Bernards, along with their breeders and owners, that have achieved an OFA CHIC certification. Listed are the required tests for our breed as suggested by the SBCA.

- Hip Dysplasia - Min Age 24 Months (One of the following)
  OFA Evaluation
  PennHIP Evaluation (min age 24 months)
- Elbow Dysplasia - Min Age 24 Months
  OFA Evaluation
- Eye Examination - Min Age 22 Months
  Eye Examination by a boarded ACVO Ophthalmologist
- Cardiac Evaluation - Min Age 24 Months (One of the following)
  Congenital Cardiac Exam by Boarded Cardiologist
  Advanced Cardiac Exam
  Basic Cardiac Exam by Boarded Cardiologist
- Degenerative Myelopathy
DM DNA Test from an approved lab
- Autoimmune thyroiditis (Optional)
OFA evaluation from an approved laboratory
- The St. Bernard Club of America also recommends a cardiac ultrasound at four years of age or after to monitor cardiac health.

Dogs must be permanently identified with a microchip or tattoo in order to qualify for a CHIC certification.

The CHIC number itself does not imply normal test results, only that all the required breed specific tests were performed and the results made publicly available.

Please visit: **https://www.ofa.org/about/chic-program** for further information about the CHIC program. OFA.org also allows for database searches to verify results on those dogs whose tests have been made publicly available.

If you would like your CHIC certified St. Bernard highlighted in the future, please contact Jen Mehle at jen@thunderkeg.com .

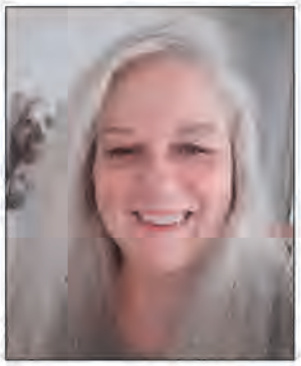
AKC Delegate Report January 2023



Sue Weigel, Sugar Saints - AKC Delegate, Saint Bernard Club of America

Meet the Breeds will be back in NYC later this month for the first time since Covid. I'm looking forward to working with the clubs and individuals who have volunteered to support this event.

The AKC Delegates' December meeting was held December 15 and 16, in Orlando, FL at the Rosen Centre Hotel. I attended the Canine Health Committee, the Parent Club and Government Relations meetings, in addition to the Delegates meeting. Below are some highlights that I hope will be of interest, and perhaps as a club we can support some of these initiatives. I think the 'Dog Aging Project' and the 'AKC Digital Library' would both be excellent programs to follow up on.

Canine Health Committee:

Dr. Jennifer MacLeay reported attending a conference on the "Dog Aging Project," in late September at Washington State University. This is a long-term epidemiologic study, funded by the NIH Institute of Aging, which has currently enrolled 35,000 dogs and hopes to enroll 100,000. Dog owners can enroll their dogs at https://dogagingproject.org/

Andrea Fiumefreddo summarized the activities of the AKC Canine Health Foundation during 2022. Over $3.4 million dollars have been awarded in 54 research grants across 18 different research program areas, including multiple educational grants. Theriogenology grants were awarded to Auburn University and the Ohio State University. Four Clinician-Scientist Fellowships were awarded to young scientists investigating ophthalmologic diseases, cancer, and emergency treatment of baclofen poisoning (a muscle relaxant medication for humans) in dogs. Complete information is available at https://www.akcchf.org/research/our-research/ or directly linked here https://www.akcchf.org/assets/files/2022-Grants-Report-FINAL.pdf

Eddie Dziuk reported that there are currently more than 170,000 CHIC numbers. CHIC numbers are now included on AKC pedigrees when available. There are over 70,000 DNA samples banked at OFA, with 1,500 new ones added this year. Sixty percent are blood specimens. There were seven requests for samples by researchers, but the requested breeds had not been banked in sufficient numbers to be useful. Blood samples are much more useful for research then cheek swabs and permit multiple distributions for each specimen banked.

Keith Frazier reported on Mari-Beth O'Neill's activities in veterinary outreach. More than 200 veterinary, veterinary technician, and agriculture students attended 13 dog shows during 2022, including a large attendance at the German Shepherd Dog National Specialty, where they were hosted by Dr. Carmen Battaglia. This exposure to purebred dogs and their breeders has had a significant impact on veterinary student attitudes toward purebred dogs, and any clubs in the vicinity of a veterinary school are encouraged to host a tour.

Even more exciting, now that we live in an era when many veterinarians have never whelped a litter, is the creation at Tufts of an elective whereby veterinary students earn scholastic credit for enrolling in a program whereby they are paired with breeders to learn about pedigree analysis, health testing, breeding and whelping, at which they are present, and also view the breeder webinars in AKC Canine College and tour a dog show. Three students enrolled in the first semester, and five have signed up for the spring semester. Laurie Maulucci, Gale Golden and Stacey Ober worked with Tufts facility to develop the curriculum, which is being prepared for publication by one of the faculty members, and which, it is hoped, will be adopted by other veterinary schools. "Meet the AKC Events" occurred at 26 veterinary schools during 2022, with Mari-Beth and Dr. Jerry Klein or Dr. Darin Collins usually presenting, but with Eddie Dziuk presenting at Missouri in November. AKC sponsored a booth at the Student American Veterinary Medical Association at the University of Minnesota March 11-13, which aimed to familiarize those attending with the AKC Fit Dog Program. Mari-Beth and the AKC/CHF attended the Therio Conference July 20-23 in Bellevue, Washington, with Mari-Beth and Dr. Darin Collins hosting a reception for students, residents, and their faculty mentors. Mari-Beth, together with the AKC/CHF and AKC Reunite, attended the American Veterinary Association convention, July 29 – August 2, in Philadelphia. Scholarships will be awarded in April 2023, totaling $65,000 to veterinary students who either compete in veterinary events or pursue research involving purebred dogs. In March, a total of $22,000 will be awarded in scholarships to qualifying participants in the Juniors program. Dr. Charles Garvin announced that the AKC Purebred Preservation Bank website is up and running. The link is http://www.akcppb.org. A new white paper by Jerold S. Bell, DVM, a geneticist at Tufts and board member of the AKC Purebred Preservation Bank, is posted at that site and explains, with respect to genetic considerations, the basis and need for a breed semen repository. Pending AKC Board approval, Dr. Garvin hopes that the Bank may begin accepting donations as of January 15, 2023. IRS approval as a not-for-profit 501.C.3 corporation is pending their review of the extensive application. Monica Henderson has been hired as the project manager and may be contacted at mail to: monica.henderson@akcppb.org. A virtual presentation is being prepared for Parent Club meetings and will be accompanied by a scheduled, live Q & A session. Dr. Garvin pointed out that the Bank will be "wide open" in accepting semen donations, but "very discriminate" in providing frozen semen, with guidelines developed in association with the Parent Clubs, should they choose to participate. (Three Parent Clubs have now established their own semen banks.) Parent Clubs are strongly encouraged to ensure that semen donations from living dogs are accompanied by corresponding blood donations to the OFA DNA bank. This will make it possible for withdrawals of semen in the distant future to be informed by DNA testing of the blood specimen for as-yet-to-be-developed genetic tests. AKC Executive VP Mark Dunn, together with Dr. Claire Wiley, AKC Executive Director of AKC DNA Programs, helped guide a wide-ranging discussion of the role of multiplex genetic testing as an aid to the selection of dogs for breeding within the context of a Parent Club, a Parent Club which might or might not contract with a particular provider of multiplex genetic tests. Clubs are advised to consult with their attorneys prior to signing any outside contract, as should be customary. The AKC will soon launch a program offering genetic testing to breeders. The testing, although on a multiplex platform, will be focused on those tests which are recommended or required by the Parent Clubs and

as informed by continuing genetic research. In many cases the AKC will have an initial DNA profile on the individual dog which will ensure that the test results pertain to the dog sampled. A genetic counselling call center to assist breeders will accompany this service.

Parent Club Committee

Peter read a heartfelt memorial to our former Committee Chair Pat Laurans. Pat passed away in October and will be greatly missed.

Update on AKC Reunite Trailer Program. The 100th trailer was recently delivered. It was sponsored by the Kennel Club of Philadelphia, the Harrisburg KC and the Pembroke Welsh Corgi Club. The trailer will be named in the honor of Pat Laurans

Sheila Goffe – Legislative Update. Updated the donations to the AKC PAC. All 50 candidates they supported did win reelection in the November general election. AKC Legislative Group has completed a survey to determine how best it can interface with AKC clubs and members as clients. There are 267 Member Clubs that do not have Legislative Liaisons. Update on the Puppy Protection Act. It includes draconian measures that limit the freedom of ethical breeders to do what they do. AKC is concerned that it might be included as a rider in some spending bills that may be passed at the very end of the year. Details: If you have four intact females and you transfer any dog for any reason, you will be considered a commercial breeder. Prohibits number of litters bred. Mandates health tests before you can legally breed your dog. If you don't comply, you then must spay the dog that had that litter. Try to get local legislators to visit people who actually breed, not the naysayers that we find in HSUS and ASPCA. They are NOT breeders and should not be considered as a source for questions about breeding practices. This is how the breed bans we have seen in Europe banning breeding of Bulldogs and Cavaliers got started, and it could very well happen here. The annual Legislative Conference will be in-person this year in Raleigh, NC on January 21-22, 2023.

Don James – Best Practices Report. Don talked about the upcoming series of webinars highlighting some of the important elements of each of the subjects the Best Practices committee has discussed. There will be one presentation bi-weekly. Topics will be in the same order as the topics were presented on the AKC website. We will do webinars on Tuesday evenings beginning at 4:30 PM Western / 7:30 PM Eastern. Presentations should not exceed 30 minutes in length, allowing time for questions either during or after the presentation. Don emphasized that the outlines are the place to go to see the entire scope of each discussion; that the webinars will only highlight four or five of the major subtopics covered in those outlines. Schedule: 1/10/23 Club Organization – Cindy Stansell; 1/24/23 Governance & Elections – Jim Cheskawich; 2/7/23 Club Finances – Cindy Stansell; 2/21/23 Membership – Alyson Casper; 3/7/23 Committees – Richard Rohrbacher; 3/21/23 Breeder Education & Mentoring & Juniors – Mari-Beth; 4/4/23 Health – Susanne Burgess; 4/18/23 Club Websites – Don James; 5/2/23 Club Publications & Social Media – Don James; 5/16/23 Public Education / Judge's Education – Don Hanson; 6/30/23 Staging the National Specialty – Karen Burgess.

Jaimie Fritz - AKC Archivist Report. "Since the launch of the AKC Digital Library, we have been working on identifying the next collections that we would like to make available to the fancy and are currently considering our Rules pamphlets, as well as our historical Breed Standards, since they contain some of our most frequently requested information about breed development. We have also hired a part-time digitization Assistant, Air Greenberg, who is working with me on completing the digitization of our West Coast Negatives project. This collection contains highly fragile media documenting the expansion of dog shows throughout the West B Coast in roughly the 1940s – 1950s. This will be a flagship collection for the Digital Archive which we anticipate will launch in 2023." "The Digital Archive will be a space for media and memorabilia collections (as opposed to the Digital Library which focuses on publication) and will also be a space where we expect to collaborate with parent clubs in highlighting their historical materials. I would love to speak with the Parent Club Committee to talk about the options for physical and digital donations, as well as to demonstrate the Digital Archive and discuss what features might be most useful in helping to preserve club history."

Respectfully submitted,

Sue Weigel, Sugar Saints

Don't let this happen to you!

The Saint Fancier is a part of the official record of the SBCA. We urge everyone who has a Best of Breed or Best of Winners at a Specialty show to submit the image for publication.

We would also like to see images for the top three placements in our 'Top Dogs' section. If your dog or bitch is in the top three for the period please send in an image unless we already have one on file for you.

Images can be sent to: nightskysaints@gmail.com (Bill Hinchman - Layout)

Be Goal Oriented

by Glen Williams - Staff Writer

It only makes sense that when we gather at a dog show, we have a variety of activities to observe in which to participate. Lou Holtz, famous football coach, is credited with saying, "If what you did yesterday seems big, you haven't done anything today."

If you didn't get a score in obedience, set a record in weight pulling, win points in the show ring or take best of breed, you have nearly a year to do better at the next National Specialty. I mention the Specialty because it is still fresh in our minds, but goals for the next one should be put into place right now. Be goal oriented. You may be happy to win a ribbon in a big show class. You can then tell the novice who comes around that, "This one or that one won a ribbon at the National Specialty for Saint Bernards." The novice should always be told the truth if he asks, but he won't know if there were four or 24 in that class where you picked up the important ribbon. If your class dog or bitch doesn't become a class winner by the time he or she is two years old, then you may be exhibiting a poor quality animal. You don't have to sell or give away the "bridesmaid," but don't add them to your breeding program. Set realistic goals and press on until you get there or even exceed those goals.

On a crumpled piece of paper in my wallet are a few of the mantras I try to live by. RISK MORE THAN OTHERS THINK SAFE. CARE MORE THAN OTHERS THINK IS WISE. DREAM MORE THAN OTHERS THINK IS PRACTICAL. EXPECT MORE THAN OTHERS THINK IS POSSIBLE! Hope you did well at the most recent National Specialty show for dogs of our breed. I feel it is important to mention "for dogs". Good training and conditioning are very important, and so is handling of the dog, but we sometimes forget it should be almost entirely about the dogs. A "B" grade handler should still win if they are presenting the best dog in the class, breed, group etc. We often forget it's about the dogs. GOOD THINGS COME TO THOSE WHO BELIEVE. BETTER THINGS COME TO THOSE WITH PATIENCE. THE BEST THINGS COME TO THOSE WHO DID NOT QUIT!'

I didn't originate those sayings and had not shared them to a big audience previously. It's a simple case of your attitude determining your altitude. Bad attitudes sour a plethora of things, including dog clubs.

I just read in the former hometown newspaper from a small community in Southern Indiana that a certain young lady will be going to college in a neighboring state. She led her high school softball team in a single season batting average, single season hits, single season doubles and tried for a single season triples! I don't even have to guess that this young lady was goal oriented.

We don't just wake up one day and decide," I'm going to take best of breed at the next show with my dog." It may take as many strokes with the comb through your dog's coat as it does strokes with a bat to hit a ball nearly always with purpose! The team, the coaches and the fans want to know what you have done for me recently. If your dog could talk, he would chime in with a similar question.

You may sometimes lose to a better handler who has a lesser dog in the ring. Let it be a growing experience and determine to do the best with what you have until you are also the best handler and only show top quality animals!

An old Roman proverb says, "Fortune favors the bold!" That proverb usually isn't written with an exclamation point at the end, but it's my story, and I say that is the way it should be. Try to forget, at least for the moment, that Rome was an evil and corrupt empire.

If you are not yet preparing an entry for the next specialty, it is time to start. Puppies are cute, and if that is all, you must work to make the puppy ready. I'm a seller of the "dream big concept," but surprisingly I do try to stay in the real world.

Glen Williams

COMMITTEE APPOINTMENTS
None

COMMITTEE REPORTS
Lynn Jech updated the Board on the current Bylaw revisions.

NEW BUSINESS
New Junior Membership was discussed regarding application and legal guardian sign off. This new membership type will be added to the proposed Bylaws changes.

Paul Bodeving shared info regarding the WUSB. Along with three Judges per dog, critiques will now be written by only one of the judges. Paul also shared WUSB breed slides, similar to our Illustrated Commentary, on the breed standard. CAC and CACIB awards will now be given.

Monies owed to the SBCA. The Treasurer and Membership Chair to determine monies owed by SBCA members and therefore "not in good standing" by AKC and thus the SBCA. Those affected will be notified. Per the AKC, this could affect members' ability to show their dogs at that event, etc.

Board communication will continue through Saintly Briefs, SBCA Facebook and SBCA website.

The Board discussed changing the title of "Governor" to "Regional Representative" to identify the role of those entities better and to add that to the Bylaws during the proposed modifications.

2023 National Update by Doug Fisher and Jessica Kuster. Sweeps at pre-shows, tent sponsor, power access (generators explored), two weight pulls, Rally and Obedience, Show Superintendent, Ribbons, Catalog and Catalog Sales identified.

2022 National Update: Carole Wilson
Reviewed schedule of remaining events. Dog health testing, Judges Education, Top 20, Fast CAT, SBCA National Classes and BOB, to name a few.

Overview of Strategic Document. Reviewed and no changes were made.

Club Benefit Task Force. Jax Nolan, the Committee Chair, resigned, and we need to appoint another Chair.
Mentoring / Education: Bridging the gap between mentors and new members/breeders. Interviewing long-standing fanciers who have contributed to the breed through an event presentation offering education to new fanciers, for example, how does your (the new member/breeder) St. Bernard meet our breed fancier standard?

Executive Session.

Meeting adjourned at 11:37am CST.

Tonya and Rob Hudson (TX): Sponsors - Brandy Brown, Jeff Creasey and Elizabeth Crook

Treasurer, Kara Wilson, updated the Board on current treasury information, including online banking access

NEW BUSINESS
Recording Secretary, Jean Anne Dugger, had no new business.

Corresponding Secretary, Joan Zielinski, had no new business.

Carole Wilson gave an overview of the 2022 National. Held onsite were three pre-shows, three Obedience Trials, three Rally Trials, three Weight Pulls and the firstt FastCAT held at an SBCA National Specialty. Also onsite was Chic testing, Top 20 and the Annual dinner.

In the 2022 SBCA National Specialty catalog, a member purchased two pages of ads to be located on the back cover and inside back cover. Per the contract with Purina Farms, the back cover must be reserved for their own advertisement. The member's ads were therefore placed on the inside back cover and facing page. Since the ad was not placed on the back cover, as paid, the member asked for reimbursement. The Board discussed reimbursing the difference in cost between the back cover and inside cover facing page.

Motion 22-53
Joan Zielinski moved to reimburse the SBCA member the difference between the cost of the back cover and inside facing page. Seconded: Fran Stephens.
In Favor: Bob Aubrey, Pam Predmore, Lynn Jech, Joan Zielinski, Jean Anne Dugger, Barb Allen, Fran Stephens, Martin Glover, Kristi Libsack, Kara Wilson.
Motion passed.

COMMITTEE APPOINMENTS
None

COMMITTEE REPORTS
Doug Fisher updated the Board on the 2023 National.
- All rooms and grounds to be used have been designated.
- Location of Dog bathing area. Water and power available.
- The RV area will be located next to dog bathing.
- Food trucks are being discussed ringside.
- The annual dinner will be held on Friday.
- Three Weight Pulls, three Obedience Trials and three Rally Trials are scheduled.
- Pre-show judges have accepted their assignments.
- Merchandise to be offered soon.
- Wednesday is Education Day. Karen will schedule the educational activities.
- Blue Ridge Stakes: funded by an anonymous donor. No SBCA monies will be used. Eligible Saints are between 6 months and 18 months.

UNFINISHED BUSINESS
The formation of the Rocky Mountain Club was discussed. All requirements have been met. The SBCA needs to communicate their approval to the AKC before the club can move forward.
Motion 22-54
(Continued on page 48

Recording Secretary

(Continued from Page 47)

Fran Stephens moved to direct the Recording Secretary to write an approval letter to the AKC supporting the Rocky Mountain Saint Bernard Club. Seconded: Pam Predmore.
In Favor: Bob Aubrey, Pam Predmore, Lynn Jech, Joan Zielinski, Jean Anne Dugger, Barb Allen, Fran Stephens, Martin Glover, Kristi Libsack, Kara Wilson.
Motion passes

The 2024 National was reviewed specifically regarding location elevation, population, past four years precipitation and nearby hotels that will allow dogs. The 2024 Co-Chairs will provide an updated contract along with responses to concerns prior to the next Board meeting.
The Board focused their discussion on the AKC Reunite trailers. A motion was made by the previous board (in January 2022) to send $15,000 from the Charitable Foundation (CF) and another $15,000 from the SBCA treasury to help support these trailers that are to be used to aid pets during major disasters. The money from the Charitable Foundation was sent but no money was sent from the SBCA. Some current Board members want to discuss the trailers before those funds are sent. A concern was the amount already paid to the AKC by the CF and the $15,000 remaining for a trailer that does not directly benefit the Saint Bernard.

Motion 22-55
Pam Predmore moved to suspend the SBCA's $15,000 donation to the AKC Reunite Trailers until further information can be gathered. Seconded: Jean Anne Dugger.
In Favor: Bob Aubrey, Pam Predmore, Lynn Jech, Jean Anne Dugger, Martin Glover, Kristi Libsack, Kara Wilson.
Abstain: Joan Zielinski, Barb Allen, Fran Stephens.
Motion passes

Meeting adjourned at 9:35pm EST.

Motion 22-56
Barb Allen moved to accept the revised contract for the 2024 National specialty submitted on December 21, 2022. Seconded: Joan Zielinski.
In Favor: Bob Aubrey, Pam Predmore, Lynn Jech, Joan Zielinski, Jean Anne Dugger, Barb Allen, Fran Stephens, Martin Glover, Kristi Libsack, and Kara Wilson.
Motion passes

Corresponding Secretary's Report

Submitted By Joan Zielinski SBCA Corresponding Secretary

Hello Members and Subscribers,
As I write this, our country is in the midst of radical winter weather, airline glitches, Covid and flu outbreaks and prices very high on groceries, including food for our dogs. Here's hoping to see 2023 working its way back to a calmer and more peaceful time than in the past year.

The dog show season started off with a bang with large entries at the many dog show clusters. We wish you all success with your Saints at the shows, both in conformation and obedience or working dog activities. Most of all enjoy the company of our gentle giants in your lives. What a wonderful breed we have!

I wish to thank our new club applicants for your interest in our big family of Saint fanciers. Here is the list of our new future members:

Welcome Aline and Sherry! We hope you will enjoy being members of the club and that you will join in on any activities that interest you. Your help will be appreciated.

And current members, please make yourselves available to meet and greet people attending their first dog shows. Reach out and engage people in conversation and give out a welcoming hand. Enjoy yourselves and remember that you always get to take the best dogs home.

Cheers,
Joan Zielinski

Notice:

The 2022 Membership Directory under the US Members section has a glitch. Some of the B's got mixed in with the C's. Susan Carter did a wonderful job with the directory, but her proof reader (that would be me) didn't do a very good job. Hopefully it isn't too confusing. Everyone should be there.

Happy New Year!

Saint Bernard Club Of America Calendar

March 1 – Start of Club's Fiscal year. The President makes Committee Chairperson appointments. Anyone interested in working on a committee please let your governor or any club officer know. Volunteers are always needed and it is a terrific way to serve your club. You can contact the Recording Secretary for a copy of the Job Description for any job which may interest you.
March 1 – Deadline for membership renewal dues.

May 1 – Members whose renewals are received after this date must re-apply for membership unless there are special circumstances which must be approved by the Board, per the Constitution and Bylaws.

September 1 - The Recording Secretary sends letters to all SBCA judges for the National and World Union Shows. For eligibility requirements, contact the Recording Secretary.

September 15 - Nominations for the Sweepstakes Judges are due. For eligibility requirements, contact the Recording Secretary.

October 15 - Nominating Committee deadline for Officers/Governors

November 1 - Mailing for the first ballot. A reminder goes with this ballot on how to run for an office via petition. If necessary, the first Sweepstakes Judges ballot (if more than 10 nominees) is included.

December 1 - Votes are due back and the counting will take place within two days of December 1st. Petitions to be on the ballot for the Officer/Board election must be received. To petition one must be an SBCA member in good standing, sign a petition to that effect and of your willingness to run and have the petition signed by five SBCA members that are in good standing.

December – Membership renewal notices are postal mailed by the Member Records Chair in this month. If you do not receive your renewal notice within a reasonable length of time, please contact the Member Records Chair.
January 15 - Final Ballot for voting of the National Judges and Officers/Board members.

February 15 - Votes are due and the counting will take place within two days.

2023 National Specialty Week - September 24, 2023 Through September 30, 2023, Oglebay Resort 465 Lodge Drive, Wheeling, WV 26003

Annual Board Meeting This meeting takes place at the National Specialty each year. SBCA members are always welcome to attend as observers. Time and place will be announced in the schedule of events where printed, and also made available at the National.
Letter of Intent - This is due at the Board Meeting from any group wanting to host a National in three years time according to the rotation schedule.

Guidelines For Ads And Images Submitted To The Saint Fancier

Images taken with a digital camera or cell phone:

Most digital cameras including those in cell phones have a setting allowing you to choose the output size and sometimes the format. The highest available image size should be used. The most common formats are JPG and TIFF. With any format, larger is better. We can always reduce the size of an image with no loss of quality but making one larger ALWAYS results in a loss of quality.

The highest quality JPG is the preferred format for electronic submission. This does produce large files but you get whatever the camera sees without loss.

Snapshot style images (400 X 300 pixels) will NOT be good enough for publication. What looks great on a computer screen does not necessarily reproduce well in print. A typical 8 X 10 show photo would be 2400 X 3000 pixels.

Scanned Images:

Scanners give you an option to change the resolution of the output image. Most scanners have the default resolution set to 200 ppi (pixels per inch) or below. This may also be expressed as dpi (dots per inch). If you are scanning an image for submission please increase the resolution to 300 ppi. You may be prompted to lower it - please leave it at 300.

Please clean the scanner glass and the photograph with a lint free cloth prior to scanning. Any streaks or dust on the glass or the photo will show up in the scan. If your image still looks dusty it may be necessary to remove the scanner glass and clean the scanner head. DO NOT TOUCH THE HEAD with your fingers or blow on it. Use compressed air.

Unacceptable:

GIF images only support 256 colors and Bitmaps (BMP) produce large files but are not usually good quality and therefore should not be used.

Hard Copies or Digital Images on CD / USB:

Original photos, CD's and USB Sticks with scanned images can be mailed to:
Bill Hinchman
3335 Ravenwood Drive
Augusta, GA 30907

Ads ready for publication can be e-mailed to Bill Hinchman at nightskysaints@gmail.com
If snail mailing documents please include return postage if you need your items returned to you. Please send original documents only. Photocopies or magazine articles will not reproduce well and will only be accepted as historical records when there is no alternative.

Publisher Deadline:

The publisher deadline dates listed in the Fancier are valid for publisher ready ads only. All other ads which require our assistance must be submitted **15 days** prior to the deadlines (see box at right) to allow for composition, proofing and layout. Ads not received and PAID by the deadline date are not guaranteed for publication in the current issue. Further information, and layout samples can be found on-line at http://saintfancierimages.org/public

Submitting New Title Announcements

Please contact me directly with the below information no later than the 10th of the month prior to publication to ensure we feature your new Titleholder in the next available Saint Fancier magazine. Please refer to a recent copy of your Fancier, find the type of title your dog has earned and follow that format in an email to me at: **mistihil@comcast.net.**
NOTE: All proofed pages go to The Annual Editor to save you extra submissions.

- Your dog's registered name and call name
- Your dog's coat length
- Date of birth
- AKC number
- The owner's name and address
- The breeder's name
- The pertinent show data which includes:
  - the date of each show
  - the show or venue name
  - the judge's name
  - the award achieved
  - the points won
  - scores and placements for obedience/rally
  - the weight pulled and percentage to body weight for weight pullers
  - the time span and number of visits for Therapy Dogs
  - the scores for Tracking and Drafting titles
- A three generation pedigree (To help reduce errors, please submit a copy of a certified pedigree or at a minimum, a copy of your registration)
- An UNCROPPED and UNRETOUCHED photo of the titled dog (see below)
- A reproducible photo of the sire and of the dam

Reminder for submission of photographs:
Any photograph submitted electronically for publication in the Fancier needs to conform to the following standards:
1 - File size. The size file needed to reproduce your photograph in print must be at least 2400 x 1900 pixels, or 1 MB. Anything smaller than this will not reproduce properly and is not acceptable.
2 - Scanned images. When scanning your photograph set the scanner to 300 DPI @ 8x10. If scanning a photograph smaller that 8x10 set the DPI to 600.
3 - Send full frame images - DO NOT CROP. The template for the page is set to maximize the image size of the dog. Cropped images will be returned.
4 - Email settings. Please check to see that your email program does not resize or 'optimize' your image. You can check this by sending the image to yourself. If the image comes back to you 20-60 KB then you need to change the setting on your computer email program.
5 - File Names: Name the file of the image you send with the registered name of the dog. You will be asked on the form to provide your dog's "call name", however, do not use it when sending the file.
6 - Photographs of the Sire and Dam of the new Title holder are to be sent at the same time, using the same guidelines for photo submission.
7 - The Saint Fancier is the Official publication of the Saint Bernard Club of America, Inc. By submitting photographs to the Saint Fancier, you are granting permission for the SBCA to publish, reprint, or otherwise utilize the submitted photographs on behalf of the SBCA in any of the club's publications or on its electronic website.

This can be submitted in several emails so don't worry if you cannot get it all into one; as a matter of fact it is probably better that you don't send one post and I will manage it all on this end.

The deadlines for submission are different than for the Fancier in general; we need to have everything in hand as early as possible but no later than the 10th of the month prior to publication; that would be January 10th, April 10th, July 10th or October 10th. Please allow me plenty of time to work on your submission as well as allowing the editor plenty of time for formatting. Also, do not hesitate to ask if you need help or guidance as I am always happy to assist, just email me or call me at (253) 267-1919.

Good luck in the ring and I will look forward to producing your New Title Holders in the Saint Fancier so they get the recognition they deserve.

Thank you,
Fran Stephens, Saint Fancier Staff
